

BioRx: The Clear Alpha-1 Solution

BioRx provides an experienced and caring clinical staff dedicated to helping alpha-1 patients through their health care journey

- Access to BioRx staff 365 days a year, 24 hours a day
- Qualified reimbursement support team to help you navigate your insurance needs
- Orders are customized based on YOUR preferences and medical needs
- In-home nursing, caregiver venipuncture training and drug administration customized to your family's situation
- Nurses highly trained in the administration of alpha-1 proteinase inhibitor products
- Highly personalized treatment based on your physician's specific nursing orders and care plan
- Personal Alpha-1 Solutions Advisor for treatment support and resource assistance

BioRx is an authorized distributor of two alpha-1 proteinase inhibitor products, ARALAST NP and GLASSIA

- ARALAST NP, a powdered formulation, can be stored at room temperature prior to reconstitution
- GLASSIA, the newest FDA-approved treatment for alpha-1 antitrypsin (AAT) deficiency, offers the first ready-to-use liquid formulation, which may help ease the infusion therapy routine

In cooperation with your physician, BioRx clinicians and support staff are here for you every step of the way.

Dedicated to Customer Service: Your Alpha-1 Solutions Advisor

With BioRx, customer service is delivered through its Alpha-1 Solutions program. Each patient with AAT deficiency is considered a consumer requiring special attention and consideration. That is why, in addition to your AATmosphere program advocate, an internal pharmacy-based consumer advisor at BioRx will be assigned to you. Your BioRx Alpha-1 Solutions Advisor can assist you with any customer service need, including insurance billing and reimbursement questions, pharmacy and nursing needs, product delivery, financial assistance, or anything else that may impact your home infusion therapy.

Your Alpha-1 Solutions Advisor is available to answer questions and minimize any anxiety or frustrations you may have. With BioRx, you will never have to wait to get the information and support you need!

You are not alone!

In fact, you and your family are covered through a network of companies and individuals that have your best interests in mind.

In addition to homecare service from BioRx, Baxter Healthcare Corporation, maker of ARALAST NP and distributor of GLASSIA, offers a broad range of value-added resources through its unique AATmosphere program. From free educational newsletters and teleconferences, to peer-to-peer patient support and a product safety net program, AATmosphere is there when you need it.

BioRx is one of the fastest growing specialty pharmacies in the United States. We provide a comprehensive, highly specialized service model designed to accommodate the needs of alpha-1 patients. From the person that answers the phone, to the specialized nurse that comes to your home, your personal BioRx Alpha-1 Solutions Advisor will work with you every step of the way to ensure your satisfaction.
